**HR Manager**  
KOLAO GROUP  
Vientiane, Lao PDR  
**Re: Mobile Developer**  
Dear Sir/Madam,

I am writing this letter to express my interest in the Mobile Developer position at your organization. I am now seeking any opportunity to gain new experience that can help me improve my professional field and I am ready to learn and work with you.

I am now about to graduate my bachelor's degree in Computer Science at the Tongren University in July 2023.

Once, I did internship at ETL Company Limited in the IT department, where I was assigned to do a lot especially develop back-end system of application such as writing API for register number, reset password, login, and display function. In addition, I am doing my final project at my university about writing Secondhand Website where I used React framework for front-end, API for Spring boot, and MySQL for database. All of these skills that I had gained from my internship and my study will be valuable for your team and your organization.

With my demonstrated ability and qualification mentioned above, I am confident that I am a quick learner and will be able to work well as a team and assist you to move your organization towards achieving the anticipated goals.

For your convenience, I have attached my resume for your review. Realizing the limitations of the written page, I would welcome the opportunity to participate in a personal interview to answer any of your questions and better present my qualifications.

Thank you very much for your valuable time and kind consideration. Please do not hesitate to contact me with any questions. Looking forward to hearing and having a work opportunity from you soon.

Best regards,

Santiphab Xonelothxath
